Subject: **THANK YOU**

Dear Butch,

I would like to extend my personal "Thank You" for the work your company performed for Spangler Candy's Dum Dum Expansion project during our recent winter shutdown. The project went very, very well even though the multi-phased project had a very tight time frame involving many different contractors with several unexpected obstacles. Woolace Electric's leadership & dedicated workforce was a large part of this success. Even though the work schedule was very aggressive, Woolace Electric did what was needed at all times of day & night and did it in a timely fashion. The working relationship by all contractors greatly aided in the project's success.

Successful projects don't happen by accident. The assistance Woolace Electric provided in planning helped minimize the surprises and stay on schedule. We met our deadline and would have finished 2 days ahead of schedule were it not for Mother Nature's snow storm on the 6th & 7th of January.

Again, please extend to your staff a sincere "Thank You" for all the extra effort on an excellent job. It did not go unnoticed! We look forward to many more opportunities to work together as opportunities come up.

Sincerely,

Paul Gackel, PE
